

# INTRODUCTION

EY is a partnership of Ernst & Young Global Limited, which is a multinational professional services organization. It is one of the largest professional services network companies in the world. It is also one of the Big Four accounting firms, together with Deloitte, KPMG and PwC.

Among other things, EY provides its clients with assurance, tax and advisory services, as well as consulting and its latest IT services: managed services in Cybersecurity, Cloud, Digital Transformation and AI. In a partnership structure, EY is a closely knit network of member firms. The partnership consists of 395,442 employees working in a total of over 700 offices and covering more than 150 countries. To be precise:

the firm in its current setup emerged from a 1989 merger between two professional services—Ernst & Whinney and Arthur Young & Co.
